ACADEMIC DETAILS

 CLASS X	Abasaheb Kakade Vidyalay Shevgaon	2018	88.40 %
 CLASS XII	Deogiri College Aurangabad	2020	73.23 %
 B-Tech(CSE)	MGM's College of Engineering Nanded	2024	73.4 %

ACADEMIC PROJECTS

❖ **SWASTIK THE EVENT MANAGEMENT SYSTEM**

Developed Full Stack Web Application for Event Management System in which we have Vendors and Customers vendors can add new packages for various events that they organized and customers can book the packages. This application was build using React JS + Vite, express JS, MongoDB Atlas for Database.

❖ **GRAPHICAL PASSWORD AUTHENTICATION SYSTEM**

Designed Graphical Password Authentication System Using Django Framework of Python, In this project we Designed the Signup and Sign-In System that Uses Images as a Password. Instead of creating the Forgettable Text Password Just Create Password with Sequence of Images.

❖ **WHATSAPP CHAT ANALYZER**

A WhatsApp Chat Analyzer is a tool that processes and visualizes chat data from WhatsApp conversations. It provides insights into messaging patterns, frequency and participant activity, often through charts and graphs. I used Python, NumPy, Pandas and Streamlit.

❖ **REMOTE CONTROL CAR**

Created a Remote-Control Car Using Arduino Uno, which can move Forward, Backward, Left and Right with Speed of near About 150 RPM.

❖ **INCREDIBLE BHARAT**

Develop the Tourist Guide Website with HTML, CSS and JavaScript. In this we provided the information of famous places in India.
